

**Program Management Professional (PgMP®) Certification - Bootcamp  
(Aligned to the Standard for Program Management – Third edition)**

**Duration - Three days ( 21 PDUs)**

PMI’s Program Management Professional (PgMP)® credential recognizes the advanced experience and skillsets of program managers. Globally acclaimed, the PgMP® certification demonstrates competency to oversee multiple, related projects and their resources to achieve the strategic business objectives.

PgMP® credential holders oversee the success of a program, grouping interlinked projects together to realize organizational objectives, not feasible to be attained by managing component projects individually.

Program Management Professional (PgMP®) is intended for senior Project Managers and Program Managers, having hands-on experience in Program Management.

GRT Consulting offers a three day workshop for preparing the participants towards acquiring this premier certification. This workshop is aligned to the Third ( 2013) edition of the PMI Standard for Program Management , the relevant PgMP® Examination Content Outline and other relevant materials

The Workshop is based on a case study and will also focus on imparting of best practices in Program management, apart from Certification examination preparation..
