

Program Management Professional (PgMP®) Certification - workshop

PMI’s Program Management Professional (PgMP)® credential recognizes the advanced experience and skill of program managers. Globally recognized , the PgMP® demonstrates competency to oversee multiple, related projects and their resources to achieve strategic business objectives.

PgMP credential holders oversee the success of a program, grouping interlinked projects together to realize organizational benefits not available by managing projects individually.

Program Management Professional (PgMP®) is intended for senior Project Managers and Program Managers, having hands-on experience in Program Management.

GRT Consulting offers a three day workshop towards preparing the participants towards acquiring this premier certification.
